Mr.Y.Sreehari delivered a Guest Lecture

Mr.Y.Sreehari Assistant professor G.Pulla Reddy College of Pharmacy has delivered a session titled **“Foundations of Network Pharmacology: Introducing Essential Computational and Analytical Tools”** at the National Seminar organized by the Department of Pharmaceutics, **GMIPSR, GM University, Davangere**, on 8 August 2026.

The session focused on the **fundamentals of network pharmacology**, its role in modern drug discovery, and the use of computational and analytical tools for studying drug–target interactions, target identification, network construction, and pathway analysis.

Approximately **140 B.Pharm, M.Pharm students**, along with faculty members, attended the session. The session was interactive and engaging, and the participants actively interacted during the discussion. I was pleased to share insights into the emerging applications of **network pharmacology and computational approaches in pharmaceutical research**.
