Industrial Training (B.Pharm)

An industrial training program was conducted for **B.Pharm final year** students at **Strides Organics Private Limited**, Kondapur, Ghatkesar, from 05-02-2026 to 07-02-2026. The visit was organized to provide practical exposure to pharmaceutical industrial operations, particularly in the manufacturing of solid dosage forms.

During the training, students were exposed to various departments involved in in-process manufacturing. They visited the Water Treatment Plant, Raw Material Storage Unit, Quality Control (QC), Quality Assurance (QA), and Air Handling Unit (AHU). Students also observed different stages of in-process manufacturing such as granulation, blending, compression, and packing. In addition, the students visited the Control Sample Unit and gained knowledge about the maintenance of records and documentation practices followed by the QA department. The in-process quality control methods were explained in detail, helping students understand the importance of quality assurance during manufacturing.

The entire manufacturing process was clearly explained by **Mr.Vittal and Ms.Supriya** from Strides Organics, who provided valuable insights into industrial practices and regulatory compliance. Faculty members **Dr. T.Naga Aparna, Dr. V. Nagesh** (Associate Professors), and **Dr. G. Sarvan Kumar** (Assistant Professor) accompanied the students throughout the visit. The industrial training was coordinated by **Mr.Y.Sreehari**, Assistant Professor, who expressed sincere gratitude to **Mr.Surender Reddy**, Unit Head, Strides Organics, for providing this valuable opportunity for students to gain hands-on industrial exposure.

The industrial training was enlightening and beneficial, enhancing students' understanding of pharmaceutical manufacturing processes and quality management systems.
